

Preparing for a Photo Shoot

A standard 3 bedroom house will take around 1 hour to shoot. Including floor-plan, photography and drone work.

To ensure the best outcome for your photos there are a few steps you can take in preparation of the shoot to make sure every photograph is the best it can be.

Ensure pets are kept out of sight or away in the garage.

Vehicles removed from driveway and not parked directly in front of the house.

Garbage bins are moved out of sight.

Clean benches, and tabletops.

Bathroom areas are de-cluttered

Ceiling fans and televisions are turned off.

All beds are made, and clothes are hung or folded and put away.
